Gordian III Silver Double-Denarius NGC Extremely Fine – This large, impressive silver coin dates back to Ancient Rome. Depicting Gordian III, the youngest to rule the empire at 13, this Double Denarius is a solid value in the current marketplace in our opinion, not to mention, it's just cool. Coin pictured is not the exact coin you will receive, however, it is the quality you can expect. Only one available for \$169.

1564-95 Austrian Taler NGC About Uncirculated 58 – Gorgeous and original silver Taler from Austria in the late 1500's with a fantastic overall appearance. Larger than a US Silver Dollar and highly undervalued in comparison given their age and quality. This particular example is very choice with an interesting obverse. Only one available for \$495.

1903 New Orleans Morgan Dollar NGC MS-66 – Check out this superb, high end Morgan Dollar from 1903 New Orleans! PCGS has awarded the coin a supremely high grade of Mint State 66 and this issue is very hard to find in higher grades than this. While 4.45 million were issued, very few are around today in such a high grade as the present example. Excellent coin and seldom seen nicer. Only \$990.

1896-P \$20 Liberty Gold Coin PCGS/NGC Mint State-63 – We absolutely love the current value that can be found in Double Eagles from the late 1800s and early 1900s. We look for issues with either low mintages, low survival rates, and particularly when they can be acquired at a very small premium in price to common dates like the 1904. Highly recommended, call for other dates and up to the minute pricing and availability. Only \$2,150.
